SCHEDULES OF FARES AND FREIGHTS TO BE CHARGED IN THE COLONIAL STEAMER "SERENDIB."—*Government Notices dated 21st November, 1871, and 2nd August, 1872.*

STEAM COMMUNICATION BETWEEN COLOMBO AND THE PORTS OF PAUMBEN, KAYTS OR JAFFNA, POINT PEDRO, TRINCOMALEE, BATTICALOA, HAMBANTOTA, AND GALLE, BY THE COLONIAL STEAMER.

REGULATIONS RELATING TO PASSENGERS.

Cabin Passengers.—The passage rates include messing, bedding, and linen only; wine, beer, and spirits may be obtained on board for payment. Should the vessel be detained in port beyond 48 hours after anchoring, and passengers mess on board, they will be liable to an extra charge of five rupees per day after the expiration of that time.

Passage Tickets.—These, both cabin and deck, can only be obtained from the steamer's Agents on payment of the fare. No passenger will be received on board without a ticket. Children under five years of age allowed free, but charged Rs. 2·00 per day for messing, except infants of one year; children over 5 years and under 10, one-half rates, to include messing. Servants of cabin passengers, one-half deck passage rates, and 75 cents per day for messing.

Baggage.—5 cwts., or 15 cubic feet measurement, allowed to each person free; children liable to charge for passage, half that quantity; all in excess, and furniture accompanying passengers, to be charged freight as per agreement with Agent at the port of shipment.

Deck Passengers.—The passage rates include water and deck accommodation only, which is restricted to that portion of the vessel before the funnel. Children under 5 years, free; over 5 and under 10, half the full rate.

Baggage.—One cwt., or 5 cubic feet measurement, not being merchandise, allowed to each person free. Children liable to charge for passage, half that quantity; all in excess to be charged as freight.

NOTE.—Gangs of *bona fide* immigrant coolies will be carried to and from Paumben and Colombo as deck passengers on the Steamer's trips round the Island, at the following rates:—viz., adults, 1 rupee and 50 cents each; children, between 5 and 10 years, 15 cents; under 5 years, free.

REGULATIONS RELATING TO CARGO.

Reception on board.—No cargo will be received on board without a shipping order from the Agent at the port of shipment. All packages must have their destination marked in English, and they must be sufficiently packed and in good order, otherwise they will not be received on board.

Delivery. The Chief Officer's receipt for goods on board, endorsed by the Agent for freight paid, will be recognized in lieu of Bills of Lading; and no goods will be delivered without the production of such receipt so endorsed. The Chief Officer may deliver goods into boats specially sent by the Agent for that purpose, in which case the Agent will be careful not to deliver the goods without the production of the aforesaid receipt.

INTEREST.

On all debts due to Government	9 per cent. per annum.
On Suitors' money and Intestate Estates -	one-third of the Interest collected by the Loan Board.
On amounts belonging to the Weeskamer and Boedelkamer funds -	3 per cent. per annum.

On Local Investments—Fixed deposits, 5 per cent.; current deposits at the usual rate.

Customs.

These duties are collected under and agreeably to the directions of the Ordinances No. 17 of 1869 and No. 14 of 1871, by which all former laws relating to Customs are repealed, consolidated, and amended, and Proclamation of 10th November, 1877; and under Ordinance No. 22 of 1877, by which a royalty of 25 cents is levied on every cwt. of plumbago exported beyond seas. Warehouse Rent charged upon goods placed in the Queen's Warehouses is levied by Government Notices dated 20th October, 1876, and 6th July, 1877, under authority of the 13th clause of the Ordinance No. 17 of 1869.

Port and Harbour Dues.

Port Dues are levied under the Ordinances No. 17 of 1869 and No. 14 of 1871. The rates are eight cents per ton inwards, and eight cents per ton outwards on loaded vessels.—Under this head are also brought to account receipts for the hire of Government boats and moorings, and half pilotage fees recovered under the Ordinance No. 6 of 1865.

Land Sales.

Under this head are included the receipts derived from the sale of Crown lands and cinnamon gardens, under the rules laid down in the Minutes of the Governor of the 14th January, 1857, and 14th May, 1875, and the half-improved value of land under the provisions of the Ordinance No. 12 of 1840, also the proceeds of sale of paddy lands in the irrigation districts, under the Minutes of 27th February, 1857, and 21st May, 1868, and grants of land under the Minute of 8th August, 1844.

Land Revenue.

Rent or Tax on Paddy.

The receipts classed under this head are derived from the rent or tax of one-half, one-third, one-fourth, one-fifth, one-eighth, one-tenth, one-fourteenth, or one-twentieth of the produce, according to the tenure on which the lands are held.

The tax is levied on the authority of immemorial usage, and is particularly recognized by the Proclamations of the 3rd September, 1801, the 22nd April, 1803, and the 21st November, 1818, and the Ordinances No. 14 of 1840 and No. 29 of 1865.

In the Central Province this tax was, till 1826, levied by an annual assessment of the crop of each harvest, and was chiefly collected in kind. In the districts adjacent to the town of Kandy, the assessment was then commuted with the consent of the proprietors, for the annual payment of a given quantity of grain, which arrangement continued in force till the end of 1830, when that system was further extended by giving the proprietors the option of paying the assessment, either at a fixed rate of money, or in kind, and even of redeeming the tax in perpetuity by payment of the assessment for 20 years. In 1832, the first settlement having expired, a renewal of the commutation assessment was entered into throughout the former commuted Districts.

The commutation system is also in full operation in some districts of the Western Province. In the North-Central, North-Western, and Southern Provinces the renting system alone is adopted. In the Northern Province the average of the renting and commuting systems is nearly equal. In the Eastern Province both systems prevail. Commutation was facilitated by Ordinance No. 11 of 1878 and is now being carried out all over the Western Province.

Rent or Tax on Fine Grain.

Recognized by the Proclamations of the 3rd September, 1801, and the 22nd April, 1803, (which impose generally a tax of one-tenth on the produce of all high lands, viz., of lands not adapted to the cultivation of paddy), and recognised by the Ordinances Nos. 14 of 1840 and 29 of 1865. In the Western Province this tax is levied in the old Kandyan divisions only according to the tenure on which lands are held, or according to the ancient usages and customs of the country. The proceeds sale of illicit cultivation of fine grain on Crown land are also brought to account under this head.

In the Northern Province the rate of tax is one-fifth for jungle cultivation, and one-tenth for all the others.

In the Kandyan territories, fine grain is exempted from taxation under the Proclamation of 21st November, 1818.

Rent of Gardens.

This revenue is derived from the produce of Government gardens either rented or collected in aumani, (that is in kind.) In the Central Province the rents derived from small Crown lands, and on reserved Crown lands on sides of public roads which are permitted to be cultivated, are also brought to account under this head.

Land Rents Redeemed, or improperly termed "Tythes Redeemed."

A measure adopted in 1813, by Government, under the conviction that cultivators of Crown paddy lands would cultivate them more carefully and with greater advantage to the revenue if subjected to payment of

one-tenth only, instead of the one-half or one-fourth. The redemption is effected by the occupier paying ten years' value of the difference between one-tenth and the share hitherto payable, in four instalments. The permission to redeem the rent altogether, which was at one time granted on the application of the owner, has been suspended.

Rent of Lands.

The receipts under this head are collected from the rental of Government lands, leased at will, and fixed rate per acre on Government lands encroached upon by private parties.

Royalty on Cabook Stones, &c.

A payment of 3 rupees and 75 cents is levied on every 1,000 cabook stones cut from the Government pits in the districts of Colombo and Negombo; of 6 cents per 100 cubic feet of sandstone quarried between Hendala and Pamunugama; and three cents on every cartload of white sand removed from the Maradána cinnamon gardens.

RENTS, EXCLUSIVE OF LANDS.

This head embraces the amount for which the Government farms out the privilege of collecting the tolls leviable at the different roads, bridges, ferries, and canals, and the Lock at St. Sebastian, under the ordinances Nos. 14 of 1867, 4 of 1868, 18 of 1869, and 2 of 1871.

It also includes the rental paid by public officers for the occupancy of official residences, and also rent of buildings used as markets, coal sheds, ice stores, &c.

LICENSES.

Arrack, Rum, and Toddy.

The exclusive privilege of retailing spirits distilled from the palm tree and arrack, rum, and toddy generally farmed in the several Provinces,—regulated by the Ordinance No. 10 of 1844.

Duty on Arrack and Rum Stills.

Under this head are brought to account sums received for licenses issued to distillers of, and wholesale dealers in, arrack and rum, under the Ordinance No. 10 of 1844. The license is granted by the Government Agents on the payment of the sum of 30 rupees, and is in force from the date of such grant until the end of the year.

Licenses to retail Beer or Porter and Intoxicating Liquors *

These licenses are issued for the retail of beer or porter and intoxicating liquors with the exception of arrack and rum, under the Ordinance No. 23 of 1877. The license is granted by the Government Agents on the payment of the sum of Rs. 10 to sell beer or porter only, Rs. 30 to sell intoxicating liquor generally not to be consumed on the premises, Rs. 100 to sell intoxicating liquor generally to be consumed on the premises, and Rs. 250 to keep an hotel, and is in force from the date of such grant until the end of the year. The collection under this head within towns has been transferred to the Municipalities created under the Ordinance No. 17 of 1865.

Chanks.

Under this head are brought to account sums received in consideration of permission granted to individuals to dig for dead chanks in Crown lands, being equivalent to one-fifth of the value of the shells procured. This branch of revenue, which is peculiar to the Northern Province, is protected by the Ordinance No. 4 of 1842.

Chank Fishery.

Under this head are brought to account sums received for permission granted for the employment of boats and divers in the chank fishery. The Ordinance No. 5 of 1842 provides that no fishery shall take place but by permission of Government, and the Government has made rules for the granting of such permission on payment of these fees.

The head "Licenses" also embraces receipts from the following taxes, &c.:—

* Rs. 50 for a license to possess opium; Rs. 100 and Rs. 200 for licenses for selling opium and bang, by retail and wholesale respectively in certain towns proclaimed under the Ordinance No. 4 of 1878.

Rs. 2·50 for a license for the storage of Petroleum under Ordinance No. 3 of 1878.

Royalty on Elephants removed from the Island, under Ordinance No. 13 of 1869, and Proclamation dated 7th July, 1873.

				Rs.	cts.
On each Elephant	—	—	—	200	0

* Under the provisions of the Ordinances No. 17 of 1865 and No. 7 of 1876 the collections within Municipal Towns and in towns in which Local Boards of Health and Improvement have been established, have been transferred to the Municipalities and Local Boards.

STAMPS.

Amount of stamps for certificates of admission of persons to act as Advocates and Proctors, levied under Ordinance No. 12 of 1848.*

Proceeds of stamps in judicial process and for general purposes, in the Kachchéries, District Courts, and Courts of Requests, and by licensed vendors throughout the Island, under the provisions of the Ordinance No. 23 of 1871.

Proceeds of postage stamps sold are also accounted for under this head, under the Ordinances Nos. 7 of 1865 and 10 of 1869.

Composition for stamp duty on bank notes in circulation.—Recognized by Ordinance No. 2 of 1861.

Stamp duties levied under the Land Registration Ordinances No. 8 of 1863 and No. 3 of 1865, and fees for registering grants of Crown lands are also brought to credit under this head, as well as certain other stamp duties enumerated in page 31.

TAXES.†

Under this head is brought to account an assessment tax generally 5 per cent. on the annual value of all landed property within towns, forts, and gravets. It is levied under the provisions of the Ordinances No. 5 of 1863 and No. 16 of 1865.—See pages 32 and 33.

POSTAGE.

Postage on letters, &c., regulated by the Ordinances Nos. 27 of 1865, 10 of 1869, and 13 of 1871.

FINES AND FORFEITURES.‡

This head includes the amount of fines levied and the proceeds of articles confiscated to the use of the Crown by orders of the Courts of Judicature, as also occasionally sums realized by the seizure of crops grown on Crown lands without permission, and confiscated timber removed without license.

SALE OF GOVERNMENT PROPERTY.

Under this head the following receipts are brought to account:—

1. The proceeds of all salt sold in the manufacturing districts in the Northern, Eastern, North-Western, and Southern Provinces, under the Ordinances No. 3 of 1836, No. 1 of 1838, No. 26 of 1852, and No. 2 of 1864. By Ordinance No. 14 of 1857, the importation of salt into this Island is allowed on payment of a duty of Rs. 2·13 the cwt. The Ordinance No. 17 of 1840 makes further provision for the protection of this source of revenue. By the Ordinance No. 5 of 1856, jurisdiction is given to Police courts over offences punishable under the Ordinances above referred to, and the law relating to this branch of revenue is also amended in certain respects.

The salt revenue is a Government monopoly; but in the Jaffna district of the Northern Province the monopoly is occasionally rented out annually; the renter who purchases the monopoly of the retail sale being supplied by Government with salt at 40 cents per cwt., which he is allowed to retail to the public at Rs. 2·24 per cwt. Salt is also sold for export to released districts and for export beyond sea, at Rs. 5·25 per ton.

In all the other salt manufacturing districts, salt is sold exclusively by Government to retailers and wholesale dealers at Rs. 2·36 per cwt.

2. Amount realized by the sale of Government buildings.
3. By the sale of timber from the Government Forests.—Recognized by the Ordinance No. 6 of 1878.
4. By the sale of unserviceable timber and stores, &c.
5. By the sale of the produce of the Botanic Garden, Pérádeniya.
6. By the sale of Delft horses.

REIMBURSEMENT IN AID OF EXPENSES INCURRED BY GOVERNMENT.

Under this head are brought to account receipts accruing from the sale of *Government Gazettes*, Colonial Office Lists, Ceylon Civil Lists, Maps, Ordinances, &c., and from advertisements inserted in the *Gazette*. Also the fees paid by the pupils of the various Government Schools, according to the rates established by the Department of Public Instruction; also value of stationery and school books sold there; sums realized by the sale of articles manufactured by prisoners; recoveries of expenses incurred for the maintenance of prisoners, in terms of the Ordinance No. 18 of 1844; stoppages made quarterly on account of the dieting, &c., of patients in the hospitals; fees for survey of Crown lands recovered from purchasers under the Minute of 14th May, 1875; collections of the general cemeteries, &c.; and recoveries under the Irrigation Ordinance No. 21 of 1867.

---

* Under the provisions of the Ordinances No. 17 of 1865 (section 60) and No. 7 of 1876, the Stamp Duties on certificates, &c., of Proctors and Advocates have been transferred to the Municipalities and to Local Boards of Health and Improvement.

† Under the provisions of the Ordinance No. 17 of 1865 the collections within Municipal towns have been transferred to the Municipalities.

‡ Under the provisions of the Ordinance No. 17 of 1865, some of the fines levied by orders of the Courts of Judicature within Towns have been transferred to the Municipalities.

§ According to the present system Colonial Stores, &c., will not form an item of Revenue.

In the North-Western and Central Provinces an allowance at the rate of 25 cents a day for each patient treated in the Government civil hospitals is recovered from the person who sends the patient to hospital, in aid of the expenses incurred for his subsistence; and in the Western Province contributions by families to the subsistence of lunatics are brought to account under the provisions of the Ordinance No. 1 of 1873.

Government Vessels.

Under this head are brought to account sums recovered on account of fares and freights of Colonial Steamer "Serendib," as per Government Notices dated 21st November, 1871, and 2nd August, 1872.

Immigration.

Under this head are brought to account sums received for passage of the immigrant labourers between the Continent of India and this Island, at the rate of 25 cents a head for men and women, children being allowed a passage free.

Miscellaneous Receipts.

Under this head are brought to account over-payments recovered, and several other items which cannot conveniently be classified under other heads.

Interest

Is charged at 9 per cent. per annum for all debts due to the Government. Under this head is also brought to account a proportion of the interest received from moneys lent by the Loan Board, as also the Interest on loans to the Municipalities and the interest allowed by the Banks on the minimum half-yearly balance to credit of Government.

Pearl Fishery

Can only be considered as a casual receipt—not as a permanent source of revenue. The regulations for the protection of the pearl banks are the Dutch Proclamations of the 28th May, 1665, and the 15th November, 1745, and the Regulation No. 3 of 1811. The Ordinance No. 18 of 1843 prohibits the possession within certain limits of certain nets, which might otherwise be used to the detriment of the banks.

Special Receipts

Are the fees established by the Governor's Minute of the 14th May, 1875, for the preparation of title deeds of Government lands sold to individuals, and fees payable upon the issue of extracts from the Register of births, marriages, &c., and on granting copies of Notarial documents; also fees for testing weights and measures, and inspection fee, under the Inventors' Ordinance, 1859.

Railway Receipts.

Under this head are brought to account all sums received on account of fares of passengers and charges for conveyance of goods, &c.

MINUTE

By His Excellency the Governor.

HIS EXCELLENCY THE GOVERNOR is pleased by virtue of the powers vested in him by clauses 5 and 20 of Ordinance No. 5 of 1861, to authorize the following scale of fees and allowances being paid to Receivers of Wrecks, for services rendered by them under the provisions of the above Ordinance.

	Rs.	cts.
1st.—Fees to Nautical Assessors.		
For every day so employed - - - -	10	50
And such travelling expenses as may be incurred, in proceeding to and from the place at which the investigation takes place.		
2nd.—Fees and Remuneration to Receivers of Wrecks.		
(*a*) For every examination instituted by a Receiver with respect to any ship or boat which may be or may have been in distress, a fee not exceeding -	10	50
But in no case shall a larger fee than Rs. 20 be charged for examinations taken in respect to the same ship, and same occurrence, whatever may be the number of deponents.		
(*b*) For every report required from the Receiver for the Agents or Secretary for Lloyds -	10	50
(*c*) Copies of depositions made before Receivers may be furnished by them to the parties applying for them at the following charges:—		
For each copy of deposition of 100 words or under - -	1	0
For every 100 words or part of 100 words over and above the first 100, an additional - - - -	0	25
(*d*) For wreck or vessels taken by the Receiver into his custody, a commission of 5 per cent. upon the value thereof; but the amount of such commission shall in no case exceed Rs. 500; and		
(*e*) If the services rendered by the Receiver or his Assistants be at a distance from their immediate stations, travelling allowances in addition, according to the rates sanctioned by Minute of 21st June, 1858.		
(*f*) When services are rendered in respect of a vessel or boat in distress not being wreck, or in respect of the cargo or articles belonging thereto, for every day the Receiver is employed in the service - - -	15	0
(*g*) Fees and expenses exclusively incurred in instituting the examination required by clause 14 of the said Ordinance, and when no services are rendered beyond taking such depositions, shall not be considered as a charge on the ship, but will be paid by Government.		

HIS EXCELLENCY is also pleased, on the recommendation of the Superintendent of Wrecks, to approve of the following Regulations for the guidance of Receivers:—

1.—*Receivers will bear in mind, that the principal object of the Ordinance No. 5 of* 1861, *and of their appointment thereunder, is*—

1st—The rendering of assistance.
2nd—The protection and preservation of wrecked property, and the restoration thereof to the owners.
3rd—The protection of the Customs revenue.
4th—The settlement of salvage claims.

The provisions of clauses 3, 7, 8, 14, 16, 17, 21 to 27, and 31 to 32, give them full powers to carry out these objects.

2.—*Inquiries into Wrecks and Casualties at Sea, clause* 3; *Ships in distress, clause* 14.

In making these inquiries the officer will remember that he is exercising a highly important function, and that his report may be the foundation of proceedings deeply affecting the interests of individuals; he must therefore most carefully endeavour to arrive at the truth, and should especially direct his attention, whether the casualty happened from avoidable or unavoidable causes,—particularly as to the

(*a*) Unseaworthiness or insufficient equipment of the ship.
(*b*) Insufficient or improper manning.
(*c*) Improper loading, overloading, bad stowage.
(*d*) Misconduct, incompetency, or neglect of master, officers, or crew.
(*e*) Ignorance of lights, or navigation of the Coast.
(*f*) Neglect of heaving the lead.

3.—*Custody of wrecked property, clauses* 9, 16, 17, *and* 18.

Clause 9.—This clause refers to property recovered from a ship wrecked or in distress at the time of wreck or casualty, and the object of its provision is to secure the property in the confusion which attends a shipwreck; to protect the Customs' revenue; to provide for payment of fees, expenses, and salvage claims. But if the master, or if the owner, or any duly appointed Agent of owner or master is in possession, and is able to take and keep custody of the property, and if all claims are paid or provided for by proper security, the Receiver need not take possession or detain the property, but he will offer his services, and render such assistance as may be required.

Clauses 16 and 17 refer to wreck saved or taken possession of at any other time.

Clause 18. --This notice should be given when the wreck in custody exceeds the value of Rs. 50, and the particulars of all articles taken possession of by the Receiver, will be entered in the Report Book No. 1, perform annexed.

4.—*Wreck arrested by order of Court of Law.*

When a derelict ship in the custody of a Receiver, or other wrecked property detained by the Receiver for the payment of salvage, is arrested by virtue of a Warrant or other instrument of Court, the Receiver should not give up the claims to fees and to any expenses he may have incurred, but should send a copy of his account to the person taking such charge, giving notice of his lien, and that the property must not be restored until the amount of his claims be paid. A copy of the account and notice should also be forwarded to the Registrar or Secretary of the Court issuing the warrant; and in the event of property being restored without payment of Receiver's claims, he should report the circumstances to the Superintendent of Wrecks, and should resume possession of the property until his claims are satisfied.

5.—*Sale of Wreck Property, clauses* 19, 27, *and* 28.

Clause 19 provides for the disposal of wreck of small value, either derelict, flotsam or jetsam, so constantly found on the Coasts of this Island; and should the Receiver find it necessary to sell property under the provisions of clause 27, he will, if the property be claimed, endeavour, in doing so, if possible, to act in concert with the owners and insurers.

All sales of importance and value should be advertized in the *Gazette* and local papers; and notice of intended sale affixed at the Custom House of the Port. The account of wreck sold is to be made in form No. 3 (annexed.)

6.—*Salvage, clauses* 21 to 26.

The decisions of questions as to salvage, if the parties cannot agree, must be determined by the Court having jurisdiction in that behalf; but the Receiver has important duties in endeavouring to settle salvage claims amicably, in providing for what may be due by detaining the property saved; in releasing the property on proper security being given; in selling the property when necessary to satisfy the claim of salvors; and in apportioning money paid in satisfaction of such claims; and the Receiver will recollect that, whilst providing for the claims of bonâ fide salvors, he must, as far as he can, protect property against vexatious and improper claims.

The essentials of salvage service are,—

(*a*) The degree of danger from which the lives or property are rescued.
(*b*) The value of the property saved.
(*c*) The risk incurred by the salvors.
(*d*) The value of any property by the use of which the services are rendered, and the danger it was exposed to.
(*e*) The skill shewn in rendering the service.
(*f*) The time and labour occupied.

The salvage should be in proportion to the use of these essentials; but where scarcely any, or only the last exist, and the same is little more than mere work or labour, it should be rewarded accordingly

The amount of reward should not however increase in direct proportion to the value of the property; and as a general rule it may be borne in mind, that the Courts of Admiralty very seldom, if ever, give more than one-half the value of the property saved.

7.—*With a view to encourage salvors and finders of unclaimed wreck and drift goods sold and taken charge of by Receivers under provisions of clauses* 19 *and* 28, *the following rewards may be given, viz.:*—

Upon the net value of property of Rs. 25 or under (two-thirds) -	$\frac{2}{3}$
When it exceeds Rs. 25 and under Rs. 50 (one-half) - -	$\frac{1}{2}$
When of Rs. 50 and above (one-third) - - -	$\frac{1}{3}$

8.—*Delivery of Property to Owners.*

On payment of all sums due for salvage, duties, fees, and expenses, the Receiver will deliver up all property which comes into his possession or custody, and the proceeds of such parts of it as may have been sold, to any person who proves himself, to the satisfaction of the Receiver, to be the owner of such property, or agent duly appointed by him, taking receipts for the same. The owner of the ship being responsible for the

cargo, and the master of the ship having, as the servant of the owner, the legal custody thereof, the Receiver will treat the master, when present, as the agent of the owner, not only of the ship, but also of the cargo; unless and until it is clearly proved, that the owners of either have put an end to such agency.

9.—*Accounts and Returns.*

The Receiver will keep a Report Book according to form No. 1, in which he will enter the particulars of every description of article taken into his custody. The reference numbers are to commence with No. 1 on 1st January of each year.

The reporting of goods taken possession of for the Receiver should be made according to form No. 2, and the sale account per form No. 3.

The Quarterly Returns, as per form No. 4, are to be forwarded through the Superintendent of Wrecks; and the net proceeds of all wreck the property of Government as unclaimed, is to be paid into the General Treasury, quarterly; the Treasurer being required to receive such moneys on account of wrecks.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 6th February, 1862.

W. C. Gibson,
Colonial Secretary.

REMARKS.

No. 1.—Arrears of Revenue. More regular payments of the preceding year apparently caused this decrease, the old outstandings gradually disappearing.

„ 2.—Customs. The increase is principally owing to a larger exportation of plumbago than in the preceding year.

„ 3.—Port and Harbour Dues. The increase is attributable to the larger number and tonnage of vessels which entered inwards and outwards during the year.

„ 4.—Land Sales. Fewer waste lands have been brought forward for sale during 1880 than in the preceding year; hence the decrease.

„ 5.—Land Revenue. The collections under this head are not so unsatisfactory as might have been expected during a year of depression. The decrease in revenue from paddy is owing to a less extent of land being brought under cultivation for want of sufficient rain in the North-Western Province, and to the decrease in the sale of paddy rents of 1880 in the Southern Province, which is, however, compensated for by a large increase in fine grain in the latter Province. The increase under this head would have been greater but for the bad crop in the Northern Province consequent on the long drought of 1880.

„ 6.—Rents, exclusive of Land. The sale of toll-rents for 1880 realized less than those for 1879, and hence the decrease under that head. The increase under the head rent of Government buildings and houses is consequent upon certain new buildings occupied as private quarters by Government officials being entered in the rent roll and recoveries of rent being made thereon.

„ 7.—Licenses. The decrease in arrack licenses is owing to the rent being sold for a less sum than in the preceding year; and that in retail of salt entirely to the sales in the Northern Province being managed in aumani.

„ 8.—Stamps. The decrease is attributable to the slackness of mercantile and other transactions requiring the use of stamps.

„ 9.—Taxes. The decrease is due to the transfer of house taxes in certain towns to the Local Boards.

„ 10.—Postage. This is a fluctuating item of revenue.

„ 11.—Fines and Forfeitures. There has been an increase under this head in all the Provinces, notably in the Western Province, and may, perhaps, be attributed to the increase of petty offences.

„ 12.—Government Vessels. This small increase does not appear to call for any special remark.

„ 13.—Sale of Government Property. The increase in salt is due to the demand for exportation and home consumption being greater than in the preceding year; and in timber, to the extended operations of Forest Conservancy Department. The decrease in Colonial Store is the result of the new arrangements adopted in the receipt and issue of stores The other items of increase and decrease are casual, and hardly call for special remarks.

„ 14.—Reimbursements. The decrease in survey fees is due to fewer lands having been put up for sale during the year; in irrigation works to the failure of crop in the North-Western Province, rendering recoveries of sums due for the year impossible; in passage money of immigrant coolies to the falling off of the arrivals and departure of immigrants; and in prison labour to the cost of prison buildings expended from breakwater funds being set off against the earnings of prisoners employed on the breakwater. The increase in cost of Police within Municipalities is only apparent, the arrears due for the half-year ended 31st December, 1879, having been recovered during 1880. The other items are casual.

„ 15.—Miscellaneous Receipts. These receipts are of a fluctuating nature.

„ 16.—Interest. The decrease under the head "Loan Board Fund" is only apparent, as it will be made up in the early part of 1881. Under the head "Arrears of Revenue" the decrease is apparently in consequence of the payments of instalments having been made more regularly. The increase "on investments" is owing to the funds in the hands of the Crown Agents having been invested in short loans till required for disbursements on the service of the Colony.

„ 17.—Pearl Fishery. The revenue under this head is the result of the fishery held in the early part of the year, realizing a larger sum than in the preceding year.

„ 19.—Railway Receipts. The decrease is owing to the diminution of goods and passenger traffic caused by failure of the coffee crop and general depression in the island trade and industries.

„ 20.—Telegraph Receipts. The receipt under this head is the result of the transfer of the Telegraph system of the Island from the Government of India to that of this Colony on the 1st July, 1880.

49.—Pensions and Retired Allowances.—The increase under this head is caused partly by the addition of new pensioners, and partly by the pensions payable in India not having been claimed regularly, so that the amount paid is constantly fluctuating.

50.—Revenue Services.—The increase is consequent upon the alteration adopted in the classification of expenditure in the estimate for the year, by which certain charges, hitherto included under Establishments, are transferred to this service, and partly to increased expenditure on account of timber and pearl fishery as resulting in increased receipts.

51.—Administration of Justice.—This increase is also mainly due to the transfer of certain charges hitherto brought to account against "Miscellaneous" and "Transport," such as salaries of Presidents of Village Tribunals, and travelling expenses of Fiscals, Judicial Officers, and their Establishments.

52.—Ecclesiastical.—The expenditure is the same as in the preceding year.

53.—Charitable Allowances.—A large expenditure was incurred in 1879 for the relief of destitute persons in the Eastern and Central Provinces. Such an expenditure was not necessary in 1880, hence the decrease.

54.—Education.—This increase is apparent and real: apparent, because of the transfer of the expenditure which was hitherto brought to account under the heads "Transport," and "Rent;" and real, because of the extension of the Grant-in-aid scheme.

55.—Hospitals and Sanitation.—This increase is also apparent, being the result of the transfer of certain expenditure hitherto brought to account by the Principal Civil Medical Officer under the heads "Contingencies," "Rent," and "Transport;" and by the Inspector-General of Police under the head "Police and Prisons."

56 & 57.—Police and Prison Services.—This apparent increase is due to the transfer of certain charges hitherto brought to account under the heads "Transport," "Allowances," "Rent," and "Contingencies." It has partially been counterbalanced by the transfer from this service to Hospitals and Sanitation of the expenditure for relieving and removing the sick and destitute and burying dead paupers.

58.—Rent.—The reduction of expenditure under this head is only apparent caused by the transfer of certain charges hitherto paid under this head to other heads of service.

59.—Transport.—The reduction is due to the same cause as the foregoing.

60.—Conveyance of Mails.—This increase is partially due to the transfer of charges hitherto brought to account against Transport and Rent, and to the extension of the Postal System.

61.—Works and Buildings.—The small increase under this head does not call for any special remark.

62.—Roads, Streets, and Bridges.—The reduction of expenditure under this head is consequent upon the disbursements upon new roads, bridges, &c., being less extensive than in the preceding year.

63.—Miscellaneous Services.—The reduction of this expenditure is chiefly owing to the transfer of charges hitherto brought to account under this head to other services.

64.—Interest.—This increase is due to the further loan of £50,000 received from the Public Works Loan Commission for Harbour Works in May, 1879, and for which interest became due in February, 1880.

65.—Colonial Store.—This decrease is only apparent.

67.—Government Vessels.—The increase is owing to the Colonial Steamer "Serendib" having been sent to Bombay for repairs, and another vessel being chartered in her place.

68.—Refund of Duties.—This is a fluctuating item of expenditure.

69.—Lands taken for Government Purposes.—The same as the foregoing.

70.—Immigration.—The transfer of certain charges hitherto brought to account under the heads "Provisional Salaries," "Transport," and "Miscellaneous" caused this apparent increase.

71.—Railway Services.—The increase is owing to the payment of interest on the loans raised for the construction of the Mátalé and Nánu-oya lines of railway. There has however been a large decrease in the working expenses, notwithstanding the expenditure incidental to the opening of the Mátalé railway in October last and the transfer of expenditure hitherto brought to account under the heads "Allowances" and "Contingencies" to "Railway Services."

72.—Railway Construction.—The decrease is simply because no appropriation has been made in the Supply Bill of 1880 for this Service.

73.—Electric Telegraph.—The expenditure in this year is in consequence of the transfer of the Telegraph to this Government.

74.—Exchange.—The decrease under this head is due to the more favourable rates ruling during the year.

REMARKS.

Length of Service. yrs.	mos.	
s	1	2 The duties of the Queen's Advocate are, in many respects, analogous to those of the Attorney-General in England, though in the other there seem to be a close resemblance to the office of Lord Advocate in Scotland. The Queen's Advocate acts on all occasions as the Legal Adviser of the Government. The Legislative enactments of the Government are prepared by him; all Contracts and Deeds entered into, by, or made in favour of the Government, are submitted to him for his opinion, and executed under his directions. He also acts, after the manner of the Lord Advocate in Scotland, as Grand Juror and Public Prosecutor. He instructs Magistrates in Criminal proceedings, and all informations in the Supreme and District Courts are in his name, and prepared under his superintendence. He appears for the Crown in all Civil cases in which it is interested.
t	38	5 Acts as amanuensis in copying official correspondence and all other papers which pass through the office of the Queen's Advocate, and compiles the Judicial Statistics.
u	31	0 The Interpreter translates documents written in the Malabar and Sinhalese languages, and enables the Queen's Advocate to communicate personally with the natives in those languages.

The Tamil population of the Coffee Estates being of so migratory a character, it is difficult to estimate definitively the number of persons under Missionary influence in connection with the Tamil Cooly Mission, but it may safely be said to be not less than three hundred thousand (300,000).

Fixed Deposits.

Interest is allowed on Fixed Deposits as under:—

Repayable at twelve months' notice, 5 per cent. per annum.
Do. six do. 4 do

N.B.—Money lodged in Fixed Deposit cannot be withdrawn until the period for which it is lodged or notice of withdrawal has expired, and at the expiration of that period the interest will cease.—These rules will be strictly adhered to.

Deposits.

1.—Deposit accounts are not opened for a less sum than Rs. 500.
2.—Cheques will be refused payment when not drawn on forms supplied by the Corporation.
3.—Cheques in which alterations have been made will not be paid.
4.—The Corporation will not hold themselves responsible for the payment of cheques which may have been advised as lost or mislaid. They will do all in their power to protect their constituents, but do not guarantee the non-payment of such cheques
5.—Packets containing money for credit of accounts, sent to the Bank by Peons, should be addressed to the Cashier and not to the Manager or Accountant.
6.—Depositors are requested not to make any entries in their pass books, which should be frequently sent in to be written up.
7.—The Corporation do not recognise Trusts, and accounts are only opened in the individual names of one or more persons.
8.—Cheques on the Chartered Mercantile Bank and the Bank of Madras or on any Sub-Branches intended for the credit of constituents in the Oriental Bank Corporation should be paid in before 2·30 P.M. (and before 1 P.M. on Saturdays), or they will not be placed to the credit of Current Accounts till the day following.
9.—Payments intended for credit of accounts at the Local Agencies of the Corporation should be made before 2 P.M , or they will not be advised till the day following.

MANUFACTURES, MINES,

AND

FISHERIES.

RETURN OF MANUFACTURES, MINES, AND FISHERIES.

N.B.—There are no regular manufactories, mills, &c., in Ceylon; those entered in this return being, with the exception of the steam engines, sugar mills, and a few of the oil mills, of a very simple kind.

There is also no regular yard for ship-building in the Island; small sloops and schooners are, however, frequently built and launched locally.

* No ships built in the Colony during the year.

† Salt manufactures.

‡ Independent of the cloth manufactured in this Province, large quantities imported from England and the Continent of India are dyed and painted by hand in the Province.

§ A large quantity of oil is made for home consumption in a rude manner, without mills, from the cocoanut; from the Illupai tree (*Bassia longifolia*), the Margosa tree (*Melia Azadearachta*), and from the Ellu or Gingely plant (*Sesamum Orientale.*) There were exported in the year 291 gallons. The price of oil was, per Gallon :—Cocoanut, rupees 1·25; Illuppai, 1·75; Margosa, 1·75; Gingelv, 3·00.

‖ *Manufactured Salt.*—The quantity collected during the year was Cwt. 244,071. The salt was manufactured by solar evaporation.

Self-formed Salt.—The quantity collected during the year was Cwt. 195,334.

¶ The chanks are found buried in mud in the shallow water of the channel between Jaffna and Elephant Pass.

** A quantity of Cwt. 6,707·3 was exported beyond seas. There are no returns of the whole quantity manufactured. It is understood that loaf sugar is made of this jaggery in places under the Madras Presidency.

* By "penal imprisonment" is meant imprisonment inflicted as a substantive punishment in pursuance of a sentence of a Court of Justice, as distinguished from imprisonment for safe custody, &c.

† The strength of these prisons is kept up by transfers from Welikada.

‡ Of this number, 8,611 were committed for a period of six days each in default of payment of a poll tax (average 1½ rupee) under the Thoroughfares Ordinance; 2,280 had been previously convicted and are included in columns 5, 6 and 7 of above return.

RETURN OF PRISONS AND PRISONERS.

REPLIES TO THE QUESTIONS, COMPILED FROM THE RETURNS OF THE RESPECTIVE SUPERINTENDENTS.

QUESTION I.

If the prison is on the separate system, is the separation complete? And if not, what is the separation enforced by day and night, respectively?

The male prisons at Welikada, and Slave Island and Breakwater Jails are on the separate system, but for a few months of the year, in the case of the two last named prisons, some well-conducted prisoners have been allowed to sleep in association, owing to the increased number of men required on the works during the present very busy season on the Breakwater. Prisoners placed in a refractory cell for misconduct are in separation by day as well as by night.

Juvenile offenders are in Colombo and Kandy kept entirely apart from adults both by day and night.

At Slave Island there is a ward for men under medical observation prior to removal to hospital.

The separate system will be entirely carried out in Kandy new jail within the next few months. There is cellular accommodation for 177 prisoners at present, (which will be shortly increased to 300), the remainder, short-sentenced and well-conducted men, are locked up in association wards.

At Mahara, Kandy (old) prison, Galle and Jaffna, there are from 40 to 80 cells at each prison, which are used for locking up the longer sentenced or indifferently conducted prisoners, the rest being kept in association wards.

At the other prisons of the Island there are fewer cells, as stated in answer to Query III.

In all prisons males are invariably separated from females, by day as well as by night.

At Welikada and Galle known prostitutes are kept in a separate yard by day, and at night locked up in separate cells. At Kandy also prostitutes are kept apart from other females. All other female convicts are kept in association. Unconvicted prisoners are kept apart from convicted prisoners.

Hulftsdorp and Kandy (old) prisons are almost exclusively devoted to the safe custody of unconvicted prisoners, only a few convicts being kept at these prisons to attend to jail services.

In other prisons, the unconvicted are locked up at night separately, as a rule, and every endeavour is made in the absence of divisional yards to keep them apart by day. This is the more easily done as the majority of convicted prisoners in such jails are at work outside for many hours.

At Welikada, Slave Island, Breakwater, and Mahara, no unconvicted prisoners are as a rule ever lodged.

Rules for further classification cannot at present be insisted on, but the more serious class of offenders, and juveniles (of whom the number is as a rule small) are locked up separately so far as the accommodation and number in prison will admit of.

QUESTION II.

If not on the separate system, what provision is there for the supervision of the prisoners while in association?

The males are supervised by male officers of various grades, and the females by matrons, in all jails.

QUESTIONS III. AND IV.

How many cells are there; and how many associated wards? Taking the *average* number of prisoners in jail, how many cubic feet of space are there for each prisoner during the hours of sleep?

QUESTION V.

How are the prisoners classified?

The classification in the Ceylon Prisons is as follows:—

(1) Males, convicted, who are sub-divided as follows:—
- (*a*) Penal stage or rigorous hard labour.
- (*b*) Second stage or industrial hard labour.
- (*c*) Third stage or industrial light labour.
- (*d*) Road Ordinance defaulters.
- (*e*) Simple imprisonment only.

(2) Females, convicted, in same class as males

(3) Males, unconvicted, who are sub-divided as follows:—
- (*a*) Debtors, Crown.
- (*b*) Debtors, private.
- (*c*) Persons committed in default of bail, witnesses, &c.
- (*d*) Do. for further examination by Justice of the Peace.
- (*e*) Do. for trial by Superior Courts.
- (*f*) Do. to await sentence and pending appeal.
- (*g*) Accused persons arrested on warrants in transit to other stations.
- (*h*) Suspected Lunatics committed for medical observation.

[At Colombo, Kandy, Galle, Jaffna and Batticaloa, no lunatics are now committed to prison, proper and separate houses of observation having been provided, which are placed under the control of the Medical Department.]

(4) Females, unconvicted.

These are the recognised divisions for classification, but (except separating males from females), it is not possible in the present stage of the Island prisons to invariably keep these classes distinct from one another, except as stated in reply to Query 1.

QUESTION VI.

Is penal labour—that is, labour by treadmill, crank, or shot-drill—in force?

Shot-drill only is in force in all prisons for convicted male prisoners, except Road Ordinance defaulters.

QUESTION VII.

If so, during what periods of imprisonment, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? In stating hours of treadwheel labour, give, first, the total time on and off at the wheel, &c.; secondly, the length of spells and intervals of rest.

All classes of convicted prisoners (road defaulters excepted) in the penal stage, and who are not exempted therefrom by the Medical Officer on account of bodily infirmity, perform shot-drill for two hours in the forenoon, and two hours in the afternoon of every week day.

The Superintendents all report that this rule is strictly adhered to.

QUESTION VIII.

What kind of labour, other than penal labour, is in use?

Within the walls of the prison:—

(*a*) All jail services, including cooking for convicts.

(*b*) Coir beating, stone breaking, coir twisting, and pingo carrying.

(*c*) At Welikada, carpentering, printing, mat and brush making are carried on. All the clothing for the prisons of the Island is made up at this prison, besides the uniform for the officers and civil guards of the Convict Establishment. There is also a blacksmith's and tinsmith's shop at Welikada.

(*d*) At Kandy the convicts are still employed in constructing the new prison buildings, without any aid from free artizans or labourers.

(*e*) At Jaffna prisoners have been employed at the jail wall.

(*f*) At Negombo, basket and envelope making.

Convict labour has been extensively employed outside the Jails, as will be seen from reply to Query IX.

QUESTION IX.

If the prisoners are employed beyond the walls of the jail, state—

(1.) On what kind of work they are so employed?

At *Kandy*, stones, and sand &c., required for the new prison were procured. Levelling the police barracks, work at the Kachcheri premises, clearing out silt from the Kandy lake, repairs to roads, aide-de-camp's quarters and Government Civil Hospital were carried out by convict labor. Prisoners were also employed at the Court-house, Government Agent's, Pavilion, Cemetery, and Colonial Secretary's premises, and at work on the jailer's new quarters.

At *Welikada*, the new guard-room was finished by convict labour, improvements made at the Borella Hospital, the Museum, &c.

At *Slave Island* and *Breakwater*, the convicts were employed as heretofore on the Breakwater works, and have done a large quantity of work, the béton blocks being entirely made, and the materials to a great extent prepared, by convicts. This work has been carried out with the same success as reported last year.

At *Mahara*, the large stones for the Breakwater works were reduced and loaded into waggons by convicts.

At *Negombo*, the prisoners were employed at reclaiming the lake, and constructing roads for the local board.

At *Galle*, levelling and weeding the esplanade, work at the new hospital and new female jail, also opening a road, and work at the new bridge.

At *Hambantota*, various works connected with the salt department, such as building and repairing stores, collecting, stacking, removing, heaping, weighing, receiving, and issuing salt, also clearing leways.

At *Kurunégala*, the convicts were employed at work in the tank.

At *Jaffna*, working at the Friend-in-Need Society's Hospital, Kachcheri, public premises, and in building jail wall and police barracks.

At *Batticaloa*, in cleaning and scavenging the lake shore, making and repairing roads, levelling church-yard, and work at Civil Hospital.

At *Kalutara*, in clearing out moat and levelling the esplanade.

Besides these special works, the prisoners at outstations are employed in breaking road metal, cleaning and scavenging public latrines, and premises, keeping the minor roads in order, planting Government lands with ornamental trees, punkah pulling, and sundry other small works.

(2.) How are they supervised?

On the Breakwater works by the Assistant Superintendent, Jailers, Deputy Jailers, and the usual staff of party officers.

At Welikada the parties are visited by the Superintendent, Assistant Superintendent, as well as the Jailer and Deputy Jailers frequently during the day.

At the Welikada, Slave Island, Breakwater and Mahara prisons there is the usual staff of overseers, sub-overseers and guards, besides the superior officers named above.

Every prison has a jailer, who visits out-door working parties frequently.

At Kandy, Galle, Hambantota and Jaffna, the convicts are supervised by overseers in addition to the ordinary guards.

At other prisons there are only guards or peons, varying according to the number of prisoners, as a rule one officer to every ten convicts at work.

(3.) How many escapes of prisoners, while being employed beyond the jail, have taken place during each of the last three years?

(4.) How are the profits of their labour accounted for?

The value of all labour rendered to the Breakwater works, and at Mahara quarry by convicts, is reported to the Auditor-General monthly, and debited to the Breakwater.

An account of the labour contributed to each work is kept, from which the reply to query XI. is compiled, but no money passes, nor is the labour paid for, except where articles manufactured in prisons are sold, when the actual cash realized is paid into the nearest Kachcheri and brought to account as revenue.

QUESTION XII.

What are the number of the hours allotted for sleep? And, if sleep is in association, are the dormitories lighted; and how often are they patrolled during the night?

The hours of sleep are from 6 P.M., to 5 A.M., as laid down in the Prison Manual, Rule 186. This regulation is reported as carried out, and in all prisons the dormitories are lighted and patrolled at night.

QUESTION XIII.

What were the number and nature of the punishments inflicted for offences committed by prisoners undergoing imprisonment?

QUESTION XIV.

Is there, or are there, any Chaplain or Chaplains of any, and what, religious persuasions?

There are no prison Chaplains, but accredited ministers of all persuasions are admitted on application.

QUESTION XV.

Are religious services regularly, or otherwise, performed for the benefit of the prisoners of any, and if any, what religious persuasion?

At Welikada, Slave Island, Breakwater, Borella Hospital, Hulfsdorp and Kandy (new) Jails frequent services are held both by Protestant and Roman Catholic Ministers, on Sundays; and religious instruction is also given by Catechists of various denominations regularly. At other prisons such services are held whenever any Minister expresses a wish to do so.

QUESTION XVI.

Are Roman Catholic Priests and Dissenting Ministers allowed free access to prisoners of their own persuasion? And are they apprized when prisoners of their respective persuasions enter the prison?

They are allowed free access, but are not informed when any such prisoners enter the prison, unless at the express wish of a prisoner.

QUESTION XVII.

What provision is made for the education of prisoners?

At Welikada education is confined to the juveniles by paid teachers, for three hours a day on week-days, and three hours on Sundays.

At Slave Island and Breakwater, teachers appointed by Government hold school from 12 to 4 o'clock every Sunday.

At Negombo teachers appointed by Government hold school from 6 A.M., to 8 A.M., on week days, and on Sundays from 6 A.M., to 10 A.M.

QUESTION XVIII.

On what conditions are remissions of imprisonment granted?

Good conduct, by which is meant industrial good behaviour in matters of discipline, and morality. Remissions of terms of imprisonment are granted in proportion to the number of good conduct marks earned by prisoners. Ordinarily the number of marks a prisoner can earn in a week is nine, and the highest remission a prisoner can obtain by uniform good conduct is two-ninths of the whole term of imprisonment to which he was sentenced, exclusive of the period of three months passed in the penal stage. When suitable work is available, all well-conducted, long-sentenced prisoners, who have been over two years in jail are eligible to earn one additional mark a week on becoming efficient artizans. After they have earned a further instalment of 1,040 marks such workmen are eligible to earn two marks per week extra, and upon earning another instalment of 1,144 marks they become further eligible to earn three marks extra a week, but the number of these is very limited.

A prisoner sentenced to three months' imprisonment, or under, is not eligible for any remission of his or her sentence.

QUESTION XIX.

Have Coroners' inquests been held on every occasion of a death in prison during the past year. And what were the verdicts?

Every death is reported to the Coroner, with a Medical Certificate as to the cause. Formal inquests are not as a rule held, unless under special circumstances, but no dead body is interred without the Coroner's permission.

The number of deaths and inquests held have been as follows :—

Jails.	Number of Deaths.*	Number of Inquests held.	Verdict.
Welikada	20	0	
Slave Island and *Breakwater*	4	0	
Mahara	4	1	"Accidental Death."

Total ...	69	4	

t the other Prisons no deaths occurred during the year.

* Exclusive of those executed.

† This prison is the sanatarium of the Department where old, weakly, and sickly convicts are sent.

QUESTION XX.

(1) What was the sanitary state of the prisons during the year 1880?

On the whole not unsatisfactory. The mortality was higher than usual owing to an influx of old men amongst the committals suffering from debility or disease. Amongst such men, 18 deaths occurred, while 2 arose from accident.

(2.) What were the prevailing diseases?

Diarrhœa, dysentery, and ague.

QUESTION XXI.

What are, shortly, the rules as to Diet?

The following is the dietary scale now in force in all prisons :—

	European and Burghers.			Natives.			Punishment Diet.	
Articles.	Full. oz.	Ordinary. oz.	Penal. oz.	Full. oz.	Ordinary. oz.	Penal. oz.	European and Burghers. oz.	Natives. oz.
Bread	16	12	24	4	4	4	28	0
Rice	16	10	8	20	20	20	0	22
Meat or Fish	8	8	0	5	2½	0	0	0
Vegetables	8	8	4	4	4	4	0	0
Plantain	4	4	0	2	0	0	0	0
Dholl	0	0	0	2	2	0	0	0
Sugar or Jaggery.	1	1	0	1	1	0	0	0
Coffee	½	½	0	½	½	0	0	0
Ghee	½	½	0	½	½	0	0	0
Onions	½	½	0	½	½	0	0	0
Salt and Pepper	¾	¾	¾	¾	¾	¾	0	¾
Curry stuffs	a sufficient quantity							

The quantities specified are a day's consumption for an adult; and are served out at three meals: one at 5·30 A.M., consisting of bread, coffee, &c.; one at 11 A.M. consisting of one-half of the remaining articles; and the remainder at 5·30 P.M.

In the case of juvenile offenders under sixteen years of age, a deduction is made of one ounce of bread, six ounces of rice, and one-fifth of the ration of meat.

Ordinary Full Diet is only given to convicted prisoners who have been actually two years in Jail.

Penal Diet is given to convicted prisoners with sentences of two months and under, during the whole of their term; to other convicted prisoners on two days in each week during the first three months of their sentences.

Ordinary Diet is given to all unconvicted prisoners, and to all convicted not entitled to full, or liable to penal diet.

Punishment Diet is only given when specially ordered as a punishment for breach of prison rules and regulations.

As an exceptional measure and in view of the more severe labour exacted on the Breakwater Works, and Mahara quarry, exceptions are made to the above rules from time to time.

SPACE AND ACCOMMODATION TABLE.

Description of Rooms.	The Number of such Rooms.	The Gross Cubic Space of all such Rooms.	The Gross Superficial Area of all such Rooms.	The Average Amount of Cubic Space available for each Patient.	Average Temperature.		The Amount of Window Space.
					Winter.	Summer.

Single Rooms	24	29,952 feet	2,304 feet	1,248 feet	...	...	297 feet.

What is the source of the water-supply; the quality of the water; and the amount of water available for each patient every day?—Water is supplied from five surface wells situated on the Asylum grounds and liable to contamination. These are provided with pumps and leaden pipes to carry the water to some wards. The water obtained from this source is soft, and abundant for the greater part of the year, and is used freely by the patients. The water for drinking purposes is filtered through silicated carbon filters and through the ordinary earthen chatties used in this country. Owing to the drought which prevailed during the months of August, September, and part of October, the water in wells failed, and it was found necessary to purchase water for drinking and culinary purposes from outside. Most of the water has to be carried on men's shoulders.

What is the number of (I.) Lavatories?—Ten.
(II.) Baths?—Nine.
(III.) Latrines?—Nine.

What is the system of sewerage?—The sewage is carried off in cemented gutters, where they pass under wards, they are covered and difficult of access. They are flushed daily by the water from the bath-rooms, and by water from a reservoir built for the purpose, and which is filled as required from time to time. The sewage is carried to the back of the Asylum and thence by an open ditch often stagnant. The dry-earth system is still in operation in the latrines, and no inconvenience has yet arisen from this method of sewage disposal. The scavenging arrangements continue the same as in former years.

Question II.—(Management.)

RESTRAINT.

Restraint.	Seclusion under Lock and Key.	Restraint by Attendants.	Mechanical Restraint.
The number of times resorted to	Nil	Nil	Nil
The number of persons subjected to	Nil	1	Nil
The greatest duration of, in any single instance	Nil	3 days	Nil

In reference to the above Table, state:—

I. By whose authority patients are restrained?—By the Medical Officer in charge.

II. What kinds of mechanical restraint are in use?—None.

III. Whether any, and (if any) how many cases of cruelty by attendants to patients have been brought to the notice of the proper authority, and what was the result in each case?—None.

IV. What was the number of cases of injury to patients,

(i) By themselves?—One; An epileptic patient committed suicide by strangulation.

(ii) By other patients?—One; through blows inflicted by a fellow patient, and resulted in concussion of brain.

(iii) By attendants?—None.

State the extent of

		ACRES.	R.	P.	
(I.)	The airing courts	0	3	27	Belonging to the Asylum.
(II.)	And other grounds	34	0	25	

Are the patients, as a rule, given daily exercise, their health permitting?—Yes.

Are they confined to airing courts, or allowed to walk in other grounds, and sent beyond the Asylum?—They walk in the grounds, and are sent out in walking parties.

Are any means taken to amuse the patients, or to induce them to amuse themselves? Detail them.—The patients amuse themselves with music and dancing, musical instruments being provided for them. Cricket and other games form their amusement on the play-ground every evening, and they find agreeable means of diversion in their wards during the day by card-playing, draughts, native games with counters and cowries, and bagatelle.

How many religious services were held in 1880?—There were thirty-six services held by a Colonial Chaplain in Sinhalese, and the Buddhist Services were held as in former years.

What was the average attendance?—The average attendance of the former service twenty, and that of the latter thirty.

In what building, and how many could it contain?—Workshop; about one hundred.

(I.) What quantity of Water is available for each patient every day?
What is the source of the Water Supply?
What is the quality of the Water?
(II.) Detail the arrangements as to Baths and Lavatories.
(III.) What is the system of Sewerage; and what the condition of the Privies?

ANSWERS TO QUESTION II.

WESTERN PROVINCE.

Leper Asylum, Hendala.—An ample supply. The Kelani river in the vicinity of the hospital and the wells in the hospital grounds. The quality of the water derived from these sources is comparatively pure and good, the drinking water obtained from the wells is after filtration free from organic taint, the river water serves the purposes of ablution, &c. There are seven bath-rooms in connection with the hospital, supplied with hot and cold water, according to the requirements of the patients. The dry-earth system is in use, in well-constructed latrines in which metal pails are placed as receptacles for the excreta and a quantity of dry and sifted earth reserved for the purpose of deodorisation. The latrines admit of the utmost cleanliness and free ventilation, and are constantly white-washed and disinfected. The sewerage is removed twice a day and buried in deep pits at a distance from the hospital.

General Hospital, Colombo.—Unlimited. Four wells. The water is conducted through iron pipes leading from these wells to two filters, Danchell's and Captain Crease's, erected at a convenient distance from the wards. Clear, soft, colourless and apparently free from organic impurities. Arrangements as to baths and lavatories consist of cemented baths built in each lavatory, eight in number, to which water is conducted through iron pipes leading from the different wells. There are also appliances for warm baths. The dry-earth system. Close stool buckets are placed for the helpless patients, chiefly in the diarrhœa wards. Portable urinals for night use are constructed in the outer verandahs of each ward. The excreta, which have collected in galvanized iron buckets in the latrines, are well disinfected with a liberal supply of fine dry-earth and are carted away night and morning by the latrine coolies, and buried at a considerable distance from the hospital.

De Soysa Lying-in-Hospital, Colombo.—Unlimited. From a well dug in the premises. The water is filtered before use. Clear, soft, and apparently free from organic impurities. There are two baths attached to the building with reservoirs for water. The sewerage is conducted on the dry-earth system.

Pánaduré.—*Ad libitum.* A well in the premises. Fair. For drinking purposes it is filtered through vegetable charcoal and coarse sand placed in alternate layers in an earthen chatty; the filtering media being often changed. There are two lavatories for males and females. Two cemented tubs are in each lavatory for bathing purposes, and water is conveyed to them by means of iron pipes, leading from a cistern close to the well. Dry-earth system. There are two latrines situated at convenient distances from the wards, and in each are placed three zinc buckets with dry-earth in them; the buckets are cleansed twice daily, and their contents buried far away from the hospital.

Kalutara.—Unlimited. The water is supplied by two wells. The water is soft and very good for drinking purposes. There are two baths connected with the male wards, and one with the female. These baths are situated on a line with the latrines and connected to the wards by means of covered corridors. The baths are cemented, and have communicating pipes with an elevated cistern situated near the well, most of the patients are allowed to bathe in the river, under the supervision of an attendant; others have their baths within the hospital. The drains are superficial and cemented, and carry off the storm water into a canal situated outside the hospital. The latrines are all built on the dry-earth system, and are provided with zinc buckets; the cleanliness of which is daily attended to by the latrine cooly.

Kégalla.—Unlimited. Two wells in the grounds adjoining the hospital. Pure and wholesome. The patients bathe in the stream close to the hospital. Tubs placed in the bath-room are available for warm baths. The sewage of the hospital is buried on hilly ground, about a quarter of a-mile to leeward of the building. There are no privies. There are two latrines for the male and female patients, respectively, conducted on the dry-earth system.

Ratnapura.—An unlimited quantity. Water is obtained from a reservoir which is connected with the hospital by a pipe. Good. There is a bath-room divided into two compartments for males and females fitted with tubs. Convalescents are allowed to bathe in the river which passes by the hospital grounds. The surface system of drainage obtains here. Latrines are conducted on the dry-earth system with efficiency.

Negombo.—Water is supplied *ad libitum.* Spring wells in the neighbourhood of the hospital. The water is of good quality. There is one lavatory with two tubs in it for the female patients, and three lavatories for the male patients, one with two cisterns in it, each of the others with one cistern. There are three spring wells in proximity to these lavatories from which water is easily supplied for bathing and ablutionary purposes. There is one latrine for the female patients, and it is provided with four seats. There are three latrines for the male patients, one having two seats and the others having three seats each. The dry-earth system is adopted in these latrines, the buckets containing the night soil being removed once a day to the cinnamon estates about three miles distant from the hospital. The latrines are in excellent condition and entirely free from smell, there being a latrine cooly who constantly attends to this work.

North-Western Province.

Kurunégala.—The supply of water is unlimited. 1st from wells, 2nd from a stream. There are two wells on the premises; one other which existed last year has been filled up, and on its site a new ward has been erected—this water is used for drinking and culinary purposes. There is a stream running close by the hospital in which the patients prefer to bathe. The quality of water is good, clear, odourless, and free from organic matter, the same as used by the Medical Officer residing on the premises. It is filtered through the usual charcoal and sand filters which are periodically cleansed and renewed. There is a separate bath-room for the males and females but these are seldom used as the patients prefer to bathe in the stream. Special arrangements are made for hot-baths when required. A cauldron being perpetually kept filled and a fire lighted day and night from which water is supplied for baths as well as for washing of sores and wounds. There is a latrine for the males and another for females on the dry-earth system. The night soil is buried in a piece of land adjoining the hospital. The latrines being cleaned every morning and evening.

Puttalam.—An ample quantity of water is available for each patient every day. A well in the hospital premises to which the water is brought by pipes from a well, supplied by a spring at Chenakudiyirippu, a place about half-a-mile distant from the hospital. The water is of good quality. It is always filtered before use. There are two bath-rooms, one for the male, and the other for the female patients; and each of these is supplied with a furnace for warming the water. Sewers are not in use; instead of privies there are two dry-earth latrines, one for the male and the other for the female patients; the excreta are daily removed from them and buried in the jungle, some distance away from the hospital. The latrines are clean and in good order.

Chilaw.—One gallon of filtered water for drinking, and twenty-eight gallons for bathing. Wells. Fresh and good. The drinking water is filtered. Tubs are placed in an enclosed shed; these tubs are filled with water taken from the wells by the hospital servants. Rubbish, &c., are collected and burnt daily. Dry-earth system is used in the latrines, and the contents of the buckets removed to a distance and buried.

Southern Province.

Galle.—Ample for all purposes. A well in the hospital premises supplies the water for washing purposes, &c., but that for drinking is now entirely drawn from the same source as that used for the prisoners, viz., Labudua, a village some distance from town. The water from the hospital well not being found sufficiently pure for drinking purposes, that now used for the patients is supplied from Labudua. The latter is of good quality, and is always filtered before use. There are bath-rooms with tubs in them for the use of both the male and female patients. The dry-earth system has been in use in this hospital ever since it was occupied, and has been found to answer admirably well. The closets are in good order.

Mátara.—The quantity of water allowed to each patient daily is unlimited. Water is obtained from a well in Pallimulle, a distance of a mile from the hospital, and prison labor is availed of for this purpose. Excellent, clear, palatable and free from organic impurities. Bath-rooms adjoin each latrine, but the patients generally bathe in an enclosure in the Mátara river, which runs by the hospital. The refuse is carried away by good drains to the swampy ground by the bank of the river, and is ultimately washed into it. There are no privies; latrines are on the dry-earth system.

Hambantota.—About six gallons for drinking and cooking purposes. A well out of town sunk at the foot of a sand hill. The water used for drinking is filtered. Quality good. Patients who can walk resort to a tank at a short distance from the hospital. There is a bath-room in the hospital premises. The latrines on the dry-earth system. The excreta removed and buried twice daily.

Tangalla.—About six gallons. Water is obtained from a well situated about 250 yards from the hospital. Very unsatisfactory; it is therefore always boiled and filtered. Patients bathe in a bath-room in the hospital premises. The latrine is conducted on the dry-earth system. It holds four zinc buckets, the contents of which are thrown into the sea morning and evening.

EASTERN PROVINCE

Trincomalee.—The quantity is unlimited. From a masonry spring well. Light, clear, and made use of after filtering. A bath-room is attached to the latrines; a tub is placed, which is filled every morning. Dry-earth system carefully carried out.

Batticaloa.—Any quantity is available for each patient every day, on the spot, except in extremely dry weather and drought. A deep well in the hospital compound. Clear, cool, and wholesome, and it is also filtered, as directed by Dr. Kynsey. There are two distinct buildings in the shape of baths and lavatories, for men and women, apart from each other, with wooden tubs, containing water for daily ablution. There is no regular system of sewerage. As the hospital is however built on a piece of high ground, it has on all sides every facility for surface drains to carry off the monsoon rains and keep ground clean and dry even in rainy season. With regard to the privies, they have been long superseded by the latrines, managed on dry-earth system without any offensive effluvia which the former are productive of.

NORTHERN PROVINCE.

Mullaitivu.—As much as required in the hospital premises Two wells in the hospital premises. Brackish, being percolation from the neighbouring tanks, &c., but properly filtered for drinking purposes by a large sized Lipscombe's filter which is in use. There are two separate permanent buildings, one for each sex, and they are provided with separate spouts from one of the wells to conduct water to the baths. There is no system of sewerage, but there are two permanent latrines with urinals attached to each of the bath-rooms, one for each sex, worked on the dry-earth system quite clean and in order.

Vavuniyá-Vilankulam.—Unlimited. Water is supplied by two wells in the hospital premises. Good, but impregnated with a metallic scaly substance (mica.) It is used after filtration. Filtering media frequently changed. Two cemented baths, one for male and the other for female patients. They are filled with water by the attendants. Superficial. Two sets of latrines for males, and one for females. They are conducted on dry-earth system and kept scrupulously clean. Close-stool buckets are kept for helpless patients.

Point Pedro.—Limited in quantity especially in dry weather, and is about a gallon per head on an average From the two wells in the hospital premises. Best water in this district. There are two bath-rooms, one for the patients in the male ward, and the other for the patients in the female ward. Each bath-room is provided with water-bank, and water is supplied from the two wells which are near to each bath-room. The patients take their bath as prescribed. There are two latrines, one for the use of the patients in the male ward, and the other for that of those in the female ward. Each latrine is provided with two cast-iron buckets and is carried on by dry-earth system. Both are in good condition.

CENTRAL PROVINCE.

Kandy.—Unlimited. Water is supplied by the Municipality. Good. The water is boiled and filtered before being used. There are two bath-rooms for the use of the European wards, one large bath-room for the native male wards and another for the female patients. There is a main sewer underground. The privies are all on the dry-earth system, the contents of the boxes being daily removed out of the hospital grounds.

Gampola.—The supply of water is unlimited. A well in the hospital compound. Clear, colourless, inodorous, soft, and free from organic impurities. For drinking purposes the water is filtered. Leading out of the wards under covered ways, there are bath-rooms furnished with tubs which are supplied with water by an arrangement of pipes, communicating with a cistern, which is fed by a pump from the hospital well. Masonry drains, some open, others covered, carry off rain and refuse water. The latrines are on the dry-earth system. There is one set for males and another for females. They are kept clean, dry, and free from smell. Each latrine has a place for preparing and storing dry-earth.

Badulla.—*Ad libitum.* Badulu-oya. Hard; not very good. Has to pass through charcoal and pebbles in two filtering tanks, then boiled and again filtered through sand and charcoal in earthen chatties having perforations. Two bath-rooms One for males and the other for females. The dry-earth system is effectually carried out. There are two latrines, one for males with six seats, and the other for females with four seats.

Mâtalé.—An almost unlimited quantity. The water is obtained from a spring about a mile from the town. It is conveyed to the hospital in pipes, and is the same as that with which the town is supplied. The water is hard It is sufficiently pure for drinking purposes. It is always filtered before use. The filters are the ordinary chatty ones containing charcoal and sand, and they are frequently cleaned. There are five bath-rooms attached to the hospital, three for males and two for females. They are situated at each end of the building, and are quite distinct from the wards. There are covered passages leading to them. The bath tubs are filled by coolies, and they are cleaned immediately after use. The dry-earth system of conservancy is in vogue in this hospital. The night soil is removed and buried in pits at a good distance from the hospital. The system answers admirably. The dry-earth latrines are in a very satisfactory condition. They are kept scrupulously clean always, and are frequently lime-washed, and the floors and lower portion of the walls are tarred.

Nuwara Eliya.—The quantity of water available for each patient is unlimited. The water supply is derived from a mountain stream that flows past the hospital and comes direct from a water-fall behind the hospital grounds. It is good and wholesome. The drinking water is carried by means of pipes from a part of the stream, above the hospital premises. It is also filtered through sand and charcoal. The filters are in good order. There are separate bath rooms for males and females, and the water from the stream close by is carried to them. In the male bath-room there is a copper-boiler for the preparation of hot water. There are separate latrines for males and females, both are conducted on the dry-earth system. A special attendant is employed to look after them and bury the excreta daily. They are in good order.

QUESTION III.

Give the number of Visits of Inspection paid to the Hospital during the year 1880.

Specifying the character of the Visit in respect to notice.	And stating the Official Position of the Visitors.		
	By the Governor or Colonial Secretary.	By a Government Inspector.	By the Official Visitors.
